

REACH- & ROHS-COMPLIANT CONFLICT MINERALS

Dear Sirs,

please be informed that our products delivered to your company are REACH and RoHs compliant.

According our production model – Made in Germany – under one roof – we have all production steps constantly in view. Our raw material suppliers are obliged to comply with all legal requirements and provisions, including updating and inform us as a „downstream user“ of any relevant changes.

The legislator has made clear rules here:

We as a downstream users are informed by our upstream suppliers if there is arlevant change in the mixture composition that triggers an obligation to provide information. Without appropriate information from our upstream suppliers there is no reason for us to act proactively.

We also do not process metals and / or conflict minerals.

To ensure your information in the future we have dealt with all the necessary information on our website (www.gummivogt.de) under FAQ. Please understand that in the large number of customers we cannot fill out every document. For safety reasons we may open no external foreign documents.

Kind regards

Fee Vogt
